

“Keep My Love”

Written by Emanuel “EJ” Johnson

Keep my love with you at all times
And don't let it leave your site
Keep my love with you at all times
And keep it with you day and night

Honey I've got to leave you
Sorry I gotta go
But before I leave you baby
One thing I want you to know

I'm gonna miss you baby
With all of my heart
And I ain't gonna let nothing baby
Tear our dreams apart

So here's my love
It's for you to hold on to
And I promise you baby
I'm gonna always be true

Soon as I get home
Soon as I get home to you
We're gonna make real good love
The whole night through

Keep my love with you at all times
And don't let it leave your site
Keep my love with you at all times
And keep it with you day and night

It's time for me to leave baby
Gotta go out on the road
Lots of pretty women
Everywhere I go

But I'm saving all my love
Saving it all just for you baby
I'm just gonna have to be lonely
Til I get with you

So keep my love
Keep it close to you
And I promise you baby

I'm gonna always be true

So many pretty women out there on the road, but you know what
But I promise you this baby I'm gonna always be true

Now if you trust in me and I trust in you
There is not a problem that we can't get through
