

“Totally With Me”

Written by Emanuel “EJ” Johnson

Once upon a summer's day
A thing a beauty came my way
It was like a dream come
I turned around and there was you

I've been a lot of places babe
And seen a lot of faces girl
But nothing else compared with you
Oh you make me feel so new

Girl I love all the things that you do
And I really care about you
And I want you to be totally with me
I beg you please

Girl I'm, I'm so into you
And lovin' you girl is all I want to do
And baby the feeling feel so right
I'm gonna love you,
I'm gonna love you for the rest of my life

Since the day that we first met
It seems I can't forget
That vision of your loveliness
My mind said no, but my heart said yes

Thinking of you constantly
And wishing you could be with me
Seems to be that all I pray
Aw, I wish you felt this way

Girl I love all the things that you like
And I need you baby in my life
And I want you to be totally with me
I beg you please
